

# User's Manual

## Basetec Unit Calculator (BUC)

### 1 General Information

*Basetec Unit Calculator* is a program, with which you can select *basetec* heat exchanger units. This short manual describes how to install/uninstall the program. Further information on the usage of the program can be found in the online help of the program. Should you have further questions, please contact *basetec products & solutions GmbH*.

### 2 Installation of program

#### 2.1 System requirements

- Operating system: Microsoft Windows 2000 or higher
- Hardware: Intel Pentium processor with 133 MHz or similar  
128 MB RAM  
approx. 100 MB free hard disk space  
1024 x 768 or higher resolution

#### 2.2 Installation

Should a current version of *Basetec Unit Calculator* already be installed on your PC, this has to be uninstalled first (see 2.3). To proceed with the installation, insert the CD-ROM into the CD drive of your PC and wait a few seconds. The installation program should then start automatically. If nothing happens, then please choose your CD drive in Windows Explorer and double click **Setup** (application). Then follow the setup program instructions.

#### 2.3 Uninstallation

To uninstall the program, enter the Control Panel via **Start-Settings** and select the command **Software**. A list appears with all registered programs. Select **Basetec Unit Calculator** and click on **OK**. The following question, whether to remove the application with all components, should be answered with **Yes!**

### 3 Licence Regulations

*Basetec Unit Calculator* is free of charge and may be used without a licence agreement. You may copy *Basetec Unit Calculator* and install it on as many PCs as you like.

The program has been created and tested with the greatest possible care. However, the company *basetec products & solutions GmbH* cannot guarantee that the program is free from all defects and fit for use. The calculations and the data do not constitute a contractual assurance of the characteristics of our products. Only the order confirmation which is drawn up by the company *basetec products & solutions GmbH* is binding.

The original CD was checked for viruses using the most up-to-date technology prior to duplication and distribution and has been found to be free of any virus.
